Plenty of Christians know what they believe, but aren't well equipped to articulate, much less defend, their beliefs. That's where the CHRISTIAN RESEARCH JOURNAL comes in. Each issue provides clear, user-friendly concepts and explanations of the biblical stance on critical issues. And while I'm proud to be a contributing writer, I'm also grateful for the help I get each time the JOURNAL shows up in my mailbox. It's a tool any believer who wants to be both relevant and biblical must have.
